I am writing today to inform you of an exciting new project: a meditation to assist the benign transformation of our planet.

As I have written before, our planet, Earth, is transitioning to a lighter density. We are all invited to come along, as caretakers of our new home. A vital part of this plan is that we wake up, that we help during this time of transformation. A vast number of our off-planet brothers and sisters, human, spiritual and celestial, await our active participation so that they too might help us in this great undertaking.

As an important part of this, they have asked us to DESIGN A NEW CIVILIZATION FOR THIS PLANET. Yes, it is up to us to decide what we wish to keep, what we would reject, and what we would create anew. This envisioning is critical to the future of our planet, for there are many directions we can go from here. Without the specifics of what mankind desires, they can only wait and hope.

Furthermore they have requested that our desires be transmitted by a mass MEDITATION, to take place ON THE FIRST DAY OF EACH MONTH, as early in the day as possible, local time. They are not requesting that we coordinate our meditations, just that we persist to do them on the first of each month.

So let your imagination soar. If you could design things exactly the way you wanted them to be, what would that look like? What are the events, relationships, projects, sights, sounds, smells, feelings, foods, drinks, conveniences, and experiences that you most enjoy, that you consider indispensable, and would want to keep around you? And don't limit yourself to my list; have a grand time imagining that which you desire. For myself, I am going to reach for the stars; I am going to envision utopia.

At the same time, ferret out what does not serve you. Again let your imagination take wing. What are the limitations, controls, structures, beliefs, lies, addictions, crutches, institutions, and ways of behaving that do not serve mankind? For myself, I wish to be rid of the lies, institutions and controls that seek power over me and my brothers and sisters.

And what do I wish to create? I would like structures that serve all people in an equitable fashion. I would like to have universal healthcare, free energy, universal wealth, and recognition of who we really are and our place in the cosmos.

The focus of my meditation will be designing a benign civilization for our planet, one that serves all its residents, humans and others, one based on love. I hope you will join me on JANUARY 1st and on the first of each month thereafter.

Let's start the New Year right.

In Truth, Love, and Joy,

Mark
